

Shower Configurator

in2aqua offers superior quality, performance, and versatility for any shower. With the easy-to-use Shower Configurator you simply click and pick your desired Design, Configuration, and Finish.

1. Click the desired Design - EDGE, STYLE or CLASSIC
2. Click the desired Shower Configuration
3. Click the desired Finish - Chrome or Brushed Nickel
4. Click the  icon (add to My Project)
5. Click the  icon (show My Project)
6. Explore the My Project page. There are a variety of options available to you.

Email the project

Print the project

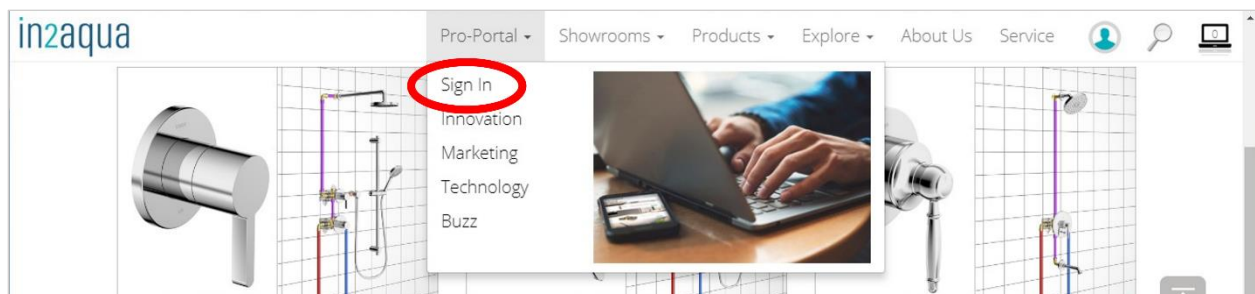

Edit the project

Convert the project to PDF

Add the specification sheet of each product to the project

Save the project

7. To save projects, create a personal Project Tracker account. Click Pro-Portal, then click Sign In.

8. Click the [Register your account](#) button.
9. Provide your Name, Email Address, and choose your own Password.
10. Click the [Register your account](#) button again.
11. Congratulations, you are now set-up to create, save, and track your in2aqua shower projects.
